RESOLUTION ON COLLECTIVE BARGAINING

The Fourth World Congress of Education International, meeting in Porto Alegre (Brazil) from 22 to 26 July 2004

1. **Given** that many EI members are attempting to establish and promote collective bargaining.

2. **Given** that in addressing issues related to teacher supply and demand, and the status of teachers, the availability of comparative research in areas specific to collective bargaining will be invaluable.

3. **It is recommended** that Education International establish a mechanism and parameters for comparative research in collective bargaining, through which EI members can contribute data for subsequent compilation, assimilation and distribution.
